FEBRUARY 2005

VOLUME 2 NUMBER 11

SDMC NEEDS YOU! By Roz Scott, SDMC Treasurer

This is the second installment in a series to generate membership interest in running for a SDMC Executive Board position. Last month Sue Hinkle wrote on the duties of the SDMC secretary and also touched upon volunteering as a way of serving this wonderful club and making it the success that it is. Since I have had the privilege of being the club treasurer for the past two years, I will be turning over the duties of that office to the next elected treasurer at the up-coming annual elections to be held in April.

The general duties of the club treasurer are:

- Record the amount for all club expenditures and receipts.
- Attend monthly meetings and provide the clubs financial report.
- Make bank deposits of all club membership dues and regalia sales.
- Attend annual meeting and provide the clubs end-of-term financial report.
- Provide checks for all club expenditures including printing of the club newsletter and postage.
- Make general business decisions as an executive board member.

The job is nearly painless. You can enjoy all the wonderful club runs, be at all the delicious eating fests and be actively involved as an executive board member while helping to keep the FUN level of the club on high. It was a pleasure to serve on the board and I believe you (as you run for office) will be equally pleased.

Download Instructions SDMC Membership List

Currently approximately 94% of our members have access to the Internet. This capability allows you, as a club member, access to Yahoo groups. What's so special about Yahoo Groups? This gives us access to all the SDMC email, photo catalogs, and list information. On this site we offer club members a membership list that includes, name (both member and SO), phone number (this field is blank if you request it), car year, car color, license plate, and home city (NOT address or zip). This information is available to members ONLY! To access this information you MUST acquire (FREE!) a Yahoo Group account. Once you have this account setup do this:

1. Go to <http://groups.yahoo.com/> (on left, top of screen you will see sign in section, logon here with name and password) note; most browsers will allow you to save this location with your password and login name. Bookmark this location and everything will be automatic after this point in time.
2. In the upper left corner you will see a section that says "My Groups." Put your cursor on SDMC-LIST and single click the left mouse button.
3. You are now on our group site. You can get to email, photos and other sources. In this case, look in the upper left section and place your cursor over "Database" and single click.
4. You are now in the Database section and you will see a list of available club databases. Single click on the desired database (most current as of this instruction is "July 2003 SDMC Membership Roster.")
5. You are now in the database and you will see a list of all club members. To sort (alphabetize by last name), single click on the field labeled "Last Name." You can sort on any other field you desire.
6. To print; single click on "Printable Report." On your browser go to "File" (upper left corner) and single click. This will drop a pull down menu of file functions. Near the bottom of the drop down menu you will see "Print." Single click this command.
7. A print menu will pop up giving you access to your printer controls (this presupposes that you have a printer hooked up to your computer). Once your printer is configured to your liking, single click on the "OK" or "Print" button.
8. Voila! you now have 17 (or so) pages of the SDMC Membership Roster.

MISSION STATEMENT

The purpose of the club is to promote the enjoyment of, and enthusiasm for, one of the world's most exciting sports cars — the Mazda Miata.

Owning and driving a Miata is one of life's great pleasures, and adding the company and camaraderie of like-minded enthusiasts only enhances the experience. Won't you join the fun as we enjoy the beauty of San Diego County from the seat of a very special little roadster?

Let's have fun driving our Miatas!

San Diego City Tour

Saturday,
February 19th
9:30 AM

Meet under the big sign at Westfield Shopping Town North County under the sign in Escondido.

Instead of driving as a group as we usually do, we will have a course with several meeting points and a time of departure from each. Because we will be touring in areas where traffic signals would break up a group, we will go as individuals. One meeting place will be in Old Town for lunch.

Come see many of the tourist highlights of our City and enjoy each other and our Miatas. Highlights will include a stop in Balboa Park and at the top of Mt. Soledad. We will return to Westfield Mall 5 to 6 hours after we start.

Borrego Springs Wildflower Run

Saturday, February 27, 2005

9:30 am (meet at Westfield Shopping Town North County under the sign)
10:15 (meet at Sizzler Parking Lot, Main Street, Ramona)

We have two meeting places to make it easier for South and East County folks to join in! Take a scenic drive to Borrego Springs for lunch

(bring a picnic for Christmas Circle Park or enjoy one of the restaurants) then drive back through Julian.

There should be a bumper crop of wildflowers this year because of all the rains. Join us for some great driving roads. Run leaders to be determined.

The SDMC Fun Team - 2005 Events Report

The Fun Team met this week to plan an events calendar for 2005. The search is now on for Club Members who would like to give a little time and energy to the Club by leading and/or coordinating an event.

Some of the events planned for 2005 include a Progressive Dinner, Tech Days, showing our cars at Del Mar Fair and other car show events, a gimmick rallye and an overnight trip to Arizona.

If you would like to help with any event (lead, help lead, bring coffee, whatever!) please contact a fun team member: The Fun Team is led by Steve Waid, events coordinator, and includes Art Hamilton, Brenda Kay, Debbye and Bruce Lewis, Dennis Garon, Elliot Shev, and Mark Booth. You can contact Steve at 760.432.0727 or swaid@cox.net.

*Remember, your help can be a little or a lot!
We are here to help with whatever YOU would like to do.
Our club depends on everyone volunteering...
not just a few doing all the work.*

**St. Patrick's Day
Poker Run for Charity
Saturday, March 19, 2005.**

The San Joaquin Valley Miata Club would like to invite all owners of Miatas to the eleventh annual St. Patrick's Day Poker Run for Charity through the foothills of Fresno and Madera counties. Portion of the proceeds from this event will go to local charities. For more information call Ron at 559-323-5243 or visit our web site at <http://www.sjvmc.net/>.

**Search for
Madonna 2005
Saturday, May 7-
Monday, May 9,**

The annual search for fun continues at the Madonna Inn in San Luis Obispo for this three days of fun. Leave early Saturday morning and return

on Monday. Reserve the room you want by going on-line at madonna-inn.com and selecting your room. Then call Barbara in group reservations to see if your choice is available and finalize your reservation.

This year instead of a banquet, we will have a free night on Saturday night. Some of us will attempt to get reservations for the night tour at Hearst Castle (can only be made 56 days in advance). Sunday will again include the Morro Bay Car Show and dinner at McClintocks. Also, we will be driving some of the best roads on the Central California Coast. For details contact Steve or Laurie at swaid@cox.net or (760) 432-0727.

**Miata Performance
Driving School
March 25, 26 & 27, 2005**

Check your tires, put your helmet on and fasten your seat belt. The Miata Performance Driving School at Thunderhill Sports Park in Northern California is accepting registrations for the class of 2005. Now in its ninth year, the 2005 Miata Performance Driving School will again bring Miata owners from all over the country to Thunderhill to learn how to get the most from their Miata.

The 2005 school will be held March 25, 26 and 27, 2005 at the Sport Car Club of America's Thunderhill track in Willows just off Highway 5, about an hour's drive north of Sacramento. The track has been the filming site for many car commercials, so you've probably seen it on TV. This course teaches Miata owners the basics of high speed driving, equipment, human limitations, proper steering techniques and lots of other skills necessary for safe performance driving.

The weekend is packed with activities beginning on Friday with a dinner, followed by classroom style lectures and training from SCCA instructors. Saturday morning

the action turns to the track with some more instruction, both in and out of the Miata. Most of Saturday and Sunday will be spent on the track with some time in between sessions to talk to fellow Miata owners and see some of the latest Miata accessories.

For the second year in a row, Saturday night will feature a BBQ at the track. This dinner gives students and instructors the opportunity to talk over the day's activities. "The entire goal of the weekend is to enable Miata owners to become better, more skillful drivers both on and off the track," said Ken Freeze, the event organizer.

The class is limited to 80 students with from 40 to 45 instructors, making for a 2-to-1-instructor ratio, a ratio higher than driving schools costing thousands of dollars.

There's nothing quite like having a Sport Car Club of America instructor right next to you as you drive lap after lap on a race course, helping you to learn just what you and your Miata are really capable of. You can register via the Internet by going to the Miata Performance Driving School Web Site at www.teammiata.com/thunderhill/school.htm. Fill out the online form, or download the PDF file and print it out and

send it in with your check. If you don't have Internet access, send a self addressed, stamped envelope to: Ken Freeze, Miata School, 1521 Ridgewood Dr., Martinez, CA., 94553 and a complete packet will be sent to you. But hurry, the past two years the class was full by the first of December so don't wait until its too late and have to wait until 2006.. Come join us for a weekend of learning, while having a lot of fun, as you drive on the Thunderhill track with SCCA instructors and fellow Miata enthusiasts. At \$400 it's the best accessory you can add to your Miata and have fun while doing it! See you on the Track!

MEMBER PROFILE: ABRAHAM MARA BY ABRAHAM MARA

I find myself writing about my love for my car at a time where I haven't been in the car in two weeks. Some may think this is because the weather is a bit rough to be driving a ragtop, but those wouldn't be folks who own one now, would they? My Miata is down, for the first time, for more than a day or two's work, as I've finally stepped up to the plate and put a turbo on it. But how did I get from riding a bicycle even a couple towns over to building a 300hp monster? Let's see....

I was born and raised in Livermore, California – an hour inland from San Francisco – “by all those windmills” to anyone who's ever passed through. My father always had a project or two in the garage, he was a mechanic for years before going to school and becoming an engineer. I didn't get my first car till the year before graduation from high school, but between the Pinto with Datsun motor in it, the dune buggy, the willy's army jeep, the ¼ mile vega, the camper van conversion, and countless other cars that made it through that garage I always had something to watch and help figure out. And when I needed rides I could always find a friend who's car I'd helped to fix who owed me a favor. When I did get a car it was a 92 horsepower monster – an 86 Pontiac Fiero, but being very aerodynamic, all plastic, mid engined, and cheap, it had much of what I've come to appreciate in a well designed car – that you don't have to spend a lot to have something great. At 18 I went off to the UC Santa Barbara to major in physics, and in my time

there I got to work on many projects including

hydrogen conversion emissions testing, concept engine/generator design, astrophysical “big bang” research (where I built most of a giant flying telescope that's core was less than 1 degree above absolute zero), looked at crystallizing proteins, helped to develop microscopes with little fingers that actually “feel” individual atoms, and even worked for Caltrans for a while. I'd left my car behind, but a few years into school I did manage to pick up a 400cc Suzuki for \$200. A year later I got a 1100cc turbo-charged Kawasaki, and some time later still picked up a 750 katana (for commuting). Since then I've added a 700cc Magna and a 600cc Ninja. Anyone want to buy a motorcycle cheap?

Since moving to San Diego I had a couple of jobs and a couple of cars, but the Miata seems to be a eye opening last stop for me. After owning the car for nearly a year I discovered the SDMC – which I'd seen the year before at the Coronado Speed Festival and was duly impressed. Ever since joining the club I've told all my friend's I'd buy another Miata even if I didn't like them just to stay with this great group of people. And I started modifying the car a little here and there. KYB shocks, Flyin' Miata sways and springs, a great set of wheels from Brian Goodwin, some bracing that was donated to me, and various little details (like making the power windows work without the key, and an MP3 input).

Due to the club, I started Autocrossing when I can make time, been on many runs, modeled my car for RonalUSA (check out pics at http://ronalusa.com/cars/mazda_miata.html), had my car signed by Tom Matano, and even managed to come away with a great plaque for winning the Surf n' Safari Murder Mystery! The great experiences and people just keep coming – SDMC and SoCalm are like a wonderful extended family for me here in San Diego. And as soon as local favorite and all around nice guy Larry Dennstedt gets me my head back (no rush Larry!) I'll be out there in the twisties with all you wonderful folks again, enjoying the very best this fine automobile has to offer – a fun drive on some fun roads. I still have flashbacks to my first Puke and a wonderful drive back from Yosemite with the Woods, and look forward to many more runs in my future!
